
Wind Turbines Challenge

Investigate how a wind turbine works – then compete to make the most efficient design. Once you the wind turbine is working then use its energy to power your own device.

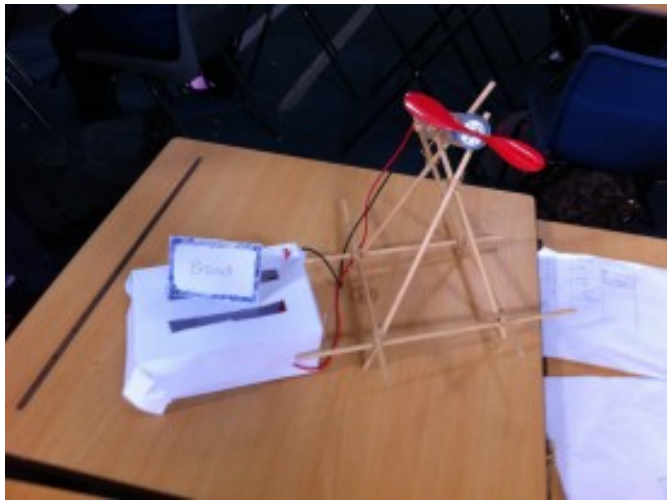
Wind Turbines Challenge brings engineering and creative design together in a team based competition. Its guaranteed to inspire KS3 STEM pupils because of its fun visual and very competitive.

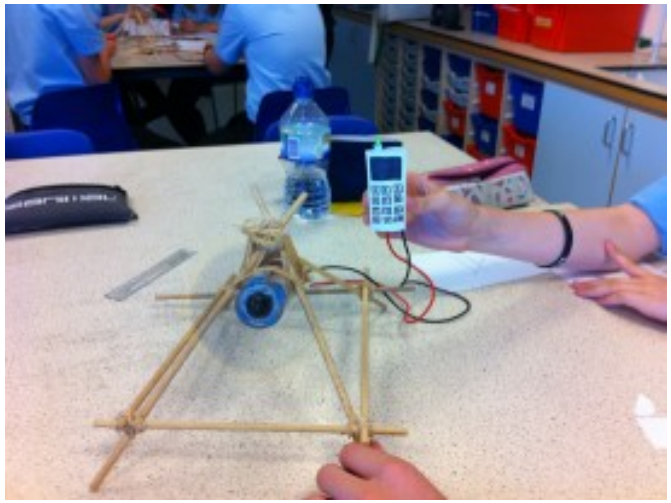
WORKSHOP DURATION

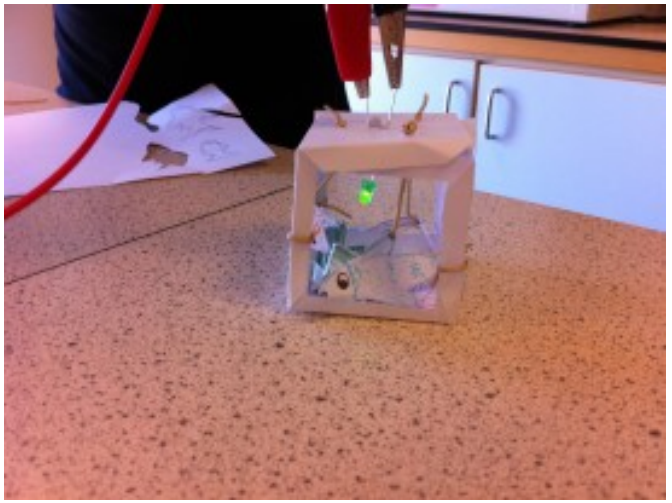
1:30

YEAR(S)

KS3
KS4

MAX GROUP SIZE






60
