
Time Challenge

This workshop delves into the concept of time and how the best scientists, engineers, inventors take their time, and work over time to perfect their ideas, inventions and discoveries.

How do F1 teams change all 4 tyres in under 2 seconds?

Answer – they work scientifically.

We can teach you their tips and techniques to improve children's performance in our exciting time challenge. Watch your pupils complete the challenge from typically 2 minutes to under 25 seconds by the end of the workshop! It's truly astounding seeing faces light up when children can't believe how quick they get completing the challenge.
